

Voluntary Learning Resources for Students with Disabilities That Take the Alternate State Assessment

Grades 6 - 8 Modified

<p style="text-align: center;"><u>Science</u></p> <p>Go outside, observe nature and describe what you see and hear. Students can use verbal, written, and their augmentative communication.</p>	<p style="text-align: center;"><u>Functional</u></p> <p>Pick a new chore around the house such as dusting, putting away toys, clearing the table and complete the chore.</p>	<p style="text-align: center;"><u>Physical Education</u></p> <p>Play “Clean Up the Yard” with your family. Divide the area in half and throw balls or rolled up socks from your side of the “court” to the other side.</p>	<p style="text-align: center;"><u>Social Studies</u></p> <p>Set a goal for this week. What steps will you take to accomplish it?</p>
<p style="text-align: center;"><u>ELA</u></p> <p>Read aloud with your child & have him/her summarize the key ideas. <u>Resources:</u> http://bit.ly/2TLhyDd provides stories where your child can read along. http://bit.ly/2WcaOjw provides stories you can read to your child and Phonics links to games and activities.</p>	<p style="text-align: center;"><u>ELA</u></p> <p>Label objects in your home (bed, doll, mirror, etc.). Help your child identify the letters and read the words.</p>	<p style="text-align: center;"><u>ELA</u></p> <p><i>Cookin’ Up Readers:</i> Have an adult choose a recipe you can cook together. Read each step of the recipe aloud to the adult. Adults: Point out any words your child reads incorrectly & have him/her reread the word correctly. Both of you complete the step that was read.</p>	<p style="text-align: center;"><u>ELA</u></p> <p><i>What’s It All About?:</i> http://www.magickeys.com/books/ provides a variety of stories to pick from, or you can choose a book at home. After reading a story with a family member, answer the question? “What is this story about?” Ask your child to share examples from the story that support the main idea.</p>
<p style="text-align: center;"><u>Math</u></p> <p>Put beans (or some other object) in a container. (1-10 objects or 11-50 objects). Make 2 scoops and count each. Have student count the two scoops or write an equation to represent the 2 scoops. Find the difference between the two.</p>	<p style="text-align: center;"><u>Math</u></p> <p>Create your own Open Middle Problems, Example: Using the digits 1 to 9 to create the largest sum possible. Examples: Openmiddle.com</p>	<p style="text-align: center;"><u>Math</u></p> <p>Find the following shapes in your house (triangle, square, rectangle, rhombus, trapezoid, cylinder, cone, cube, quadrilateral, and parallelogram) Measure the objects in standard.</p>	<p style="text-align: center;"><u>Math</u></p> <p>Go to: http://bit.ly/3aKDwvM Click on your instructional level and play the games at the bottom of the page.</p>
